

SOLVAir® Breeze

Trona SO₃ Sodium Bicarbonate SO₂ Soda Ash HCl

EUEC Update

Going to the EUEC Energy & Environment Conference in 2009? Check us out at Booth #307, where you can pick our brains for solutions to such problems as SO₂, SO₃, NO_x, HCl and Hg in stack gases. This is a great chance to get together to discuss your company's needs, and how SOLVAir products effectively treat air pollution.

For immediate information, go to our library at www.solvair.us for a wide variety of material designed to help proactive energy companies treat or control stack gas emissions.

The EUEC will be held February 1-4, 2009 in Phoenix, Arizona. Since its inception in 1995, it has become a great networking conference and trade show, and we at the SOLVAir Group welcome this opportunity to get to know many of the more than 2000 delegates attending.

We look forward to seeing you!

Mike Wood
SOLVAir Products Business Manager
